COLLEGE OF THE DESERT

WEST VALLEY CAMPUS

PHOTO SURVEY
(November 18, 2014)

1. & 2. Two views looking west to the existing Camelot Festival Theaters located in the southwest corner of the project planning area. Parking for the theater has been through a reciprocal parking agreement between the mall and theaters.

3. View looking northeast from the north parking lot to the existing Jack in the Box restaurant.

4. View looking south from the north parking lot to the north elevation of the existing mall. This was one of the main mall entrances and reflects the last remodeling effort.

5. View of one of the mall service and delivery areas showing a loading entrance, utility closets and service drive.

6. View of narrow loading area located between department store and supermarket spaces. Visibility into this space is obstructed by other improvements to west.

7. Partial view of the mall south elevation facing Baristo Road and the high school. Note partial patching of signage mountings and graffiti paint-overs.

8. View northeast to northwest corner of mall building, which housed the Vons supermarket. In addition to evidence of graffiti over-painting, there is soffit damage in the arch element on this portion of the west façade.

9. View looking northwest toward the eastern portion of the south elevation. Includes a loading dock and mechanical/electrical equipment enclosure. Note lack of visual relief.

10. View of west entry into what was a major mall entrance that accessed the main department store and central mall court.

11. Southerly-most store entrance on the east façade of the mall (facing Farrell Drive). Was access to a department store.

12. Southeast corner of mall building showing entrance shown in Photo 11. Note graffiti paint-overs, and patched building repairs.
