Indio Campus
Mecca/Thermal Campus
Desert Hot Springs Campus
Temporary Palm Springs Campus

Examples of Program Specific Locations

Roy Wilson Training Center
Public Safety Academy
Automotive Center – Roadrunner Motors
Early Childhood Education Centers

University Partnerships Expand Opportunities

College signs pact for Cal State satellite site

PALM DESERT — College of the Desert trustees signed a lease agreement with California State University, San Bernardino (CSUSB) bringing the possibility of acquiring a four-year degree closer to home.

For $1-a-year the university will rent space from COD. In return, the university will offer three un-dergraduate programs in liberal studies, social sciences, and nursing and two master degree programs in education.

The board's unanimous decision at the April 18 meeting clears the way for CSUSB to bring portable classrooms to the campus.

The modular units will be located on the lawn area between parking lots 5 and 7; south of the engineering building and east of the science building.

CSUSB has budgeted close to $500,000 to cover operational expenses at the satellite campus for 1986-87.

The lease runs from July 1986 through June 1991.

California State University San Bernardino Satellite Campus
Started on College of the Desert's campus in 1986

Partnerships to Expand Access Close to Home

PS Campus Example: Potential program partnership with Cal Poly Pomona School of Architecture

- Expand certification and degree opportunities in high-demand careers
- Align educational attainment and workforce needs
- Community-facing
- Local employers & community-based organizations play a significant role
- Demand-driven programming
